BLUES TAKE THE SECOND.

THEY DEFEAT THE GOLDBUGS BY A SCORE OF 7 TO 4.

Jack Menefee Does Some Pretty Work in Left Field-Jim Bannon Leads With the Stick-Bad Base Running by Visitors.

The Blues did all of their scoring in the first half of the game yesterday. When they stopped getting runs in the fifth in-ning the visitors began, but the lead secured by the home team was too great for Grand Rapids to overcome and they went down to defeat by a

score of 7 to 4. The Blues fell onto the mixture of curves served up by George Cross in the first inning and practically won the game. They put across the plate by hitting. Cross didn't have the team of hitters and fielders behind him yesterday that he used to have when he won games from Kansas City last year while he was with the Hoos-

bition of how not to run bases. They run bases. They couldn't hit the bail when hits would have counted for runs, and, all together, they gave a pretty bad example of the national game. It was an off day for Umpire Haskell and one or two of his decisions needed furnigation. Delehanty had an off day at bat, striking out twice, besides failing to get a hit. The best work of the day was done by Jack Menefee and Connaughton. Menefee made two as pretty catches as one would care to look at, gathering one of them in on the dead run toward the stone wall. Connaughton accepted eight chances without an error, some of his pickups being very fine. Jimmie Bannon led both teams at the bat, getting in three timely hits. For the visitors the two excellence, 1.00 and hits. For the visitors the two ex-Blues, Hatfield and Campau, each knocked out a threebagger although Hatfield's came through the grace of Bannon misgausting it.

Quick work was made of the visitors in the first and second innings. In the third a double by McVicker followed by a single by Carney added another run to the credit of the Blues. Thei Blues wound up their run getting in the fifth. Connaughton bunted and beat it out. McVicker tried to sacrifice, but popped up to Hattield. Banpon drove a hot one to Roat, who made a bad throw to first, letting Connaughton to third and Bannon to second. Carney's single to right brought them both in.

When the Blues quit seoring the visitors began. In the last half of the fifth Hattield drove a warm one to Carney, who stopped it with his shins, giving Gil a life in first. Buckly followed with a single, and Cross drew a base filling the sacks. Friend suddenly seemed to lose control of the ball and he gave a base to Slagel, letting Hatfield walk in with the first run for the visitors. Roat drove a bot one to Connaughton, who made a beautiful pickup and rushing across second, fired the ball to Carney, killing off Slagel and Roat. In the meantime, Buckly yran in from third. New York, May 25.—To-day was Charity day at Morris park, one-half of the net receipts being devoted to the fund for disabled jockeys and the other half to the fresh air charities of New York. There was a good attendance, drawn by the prospects of a good race between the 4-year-olds Requital and Handspring, but the spectators were disappointed, as the two were by no means evenly matched, and Handspring made the Futurity winner of two years ago look like a selling plater, winning hard held in the slow time of 1-2. The betting was very heavy and all the plungers were badly beaten, as they backed Requital for as much as the layers would take.

Hand Press lowered the record for maiden 2-year-olds for four and a half furiongs, making it in 0-32. Summaries:

CONFERENCE AT TOPEKA.

Representatives of About Thirty Kansas Lines Will Meet With the Commissioners.

Topeka, Kas., May 25.—(Special.) Com-missioner Campbell and Clerk Senter, of the Kansas railroad board, have been engaged for the past ten days in preparing a statement of camparative rates in the states of Illinois, lown, Missouri and Kansas. It is given out that the rates in Kansas are found to be in excess of those in either of the other states named.

At the conference to be held to-morrow between the railway commissioners and the representatives of the different Kansas lines, it is understood the commissioners will ask that rates be reduced on grain, coal and live stock, and that no reduction will be asked in merchandise rates. About thirty roads will be represented. All Kansas lines accepted the invitation of the commissioners except the Maple Leaf. That road understood the hearing had to do with Gulf rates, and advised that it was not a Gulf line, never expected to be, and had no interest in the hearing. Chicago. Ill., May 25.—The general passenger agents of the Western roads, who for several months have been trying to find a form of round trip excursion ticket which would prove useless for scalping purposes, have finally decided that the ticket invented by General Passenger Agent Sebastian, of the Rock Island, and known as the Sebastian ticket, is the only one that will answer the purpose. The chief feature of this ticket is that the purchaser does not receive the return portion of his ticket until after he has arrived at his destination and is about to make the return trip.

Fill a bottle or common glass with urin and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. Mr. Lincoln was en route to Topeka to attend the conference of railway men with the railroad commissioners of Kansas in regard to a reduction in rates.

Purpose of the Ripley Order.

President Ripley, of the Santa Fe, is said to have had two objects particularly in view when he issued his recent order prohibiting employes from engaging in other business while continuing in the service of the Santa Fe. It is explained that what is known as "government work" has been practiced to a considerable extent. When a foreman has the men build a house or barn for himself, instead of doing work for the company, that is known as "government work." It is also said that employes frequently neglected their work for the company to develop inventions, of which the foremen in the shops were generally beneficiaries.
